

UNIVERSITY OF
MARYLAND AT
COLLEGE PARK

PRESIDENT'S MESSAGE TO THE GRADUATES

Congratulations to each and every one of you on the successful completion of your studies! On behalf of the university, I want to thank you for being a part of our community during this crucial period of your intellectual and professional development.

You and your families can be very proud of the success we are celebrating today. In these times of limited resources, and increased competition, it takes extraordinary effort and discipline to support an academic life. We are confident that the time and resources you have invested in this institution will serve you well and that you will take to your future careers the energy, creativity and commitment you have demonstrated here.

College Park has experienced a great many changes and challenges during your years here. Because we never lost sight of our paramount responsibility to you, our students, we have been fortunate in having your support and understanding in our efforts to keep this university true to its mission of excellence. We thank you for that loyalty and support. As you leave the campus community to seek wider vistas and new challenges, we hope you will not wander too far—at least not in spirit—from your alma mater. We

will be eager to learn about your successes just as we will want to share with you the future advances of your university. Please stay in touch.

WE Kirwan

William E. Kirwan

ORDER OF COMMENCEMENT MAY 20, 1993

Cole Student
Activities Building
9:30 a.m.

Presiding

Dr. William E. Kirwan
President

Alma Mater

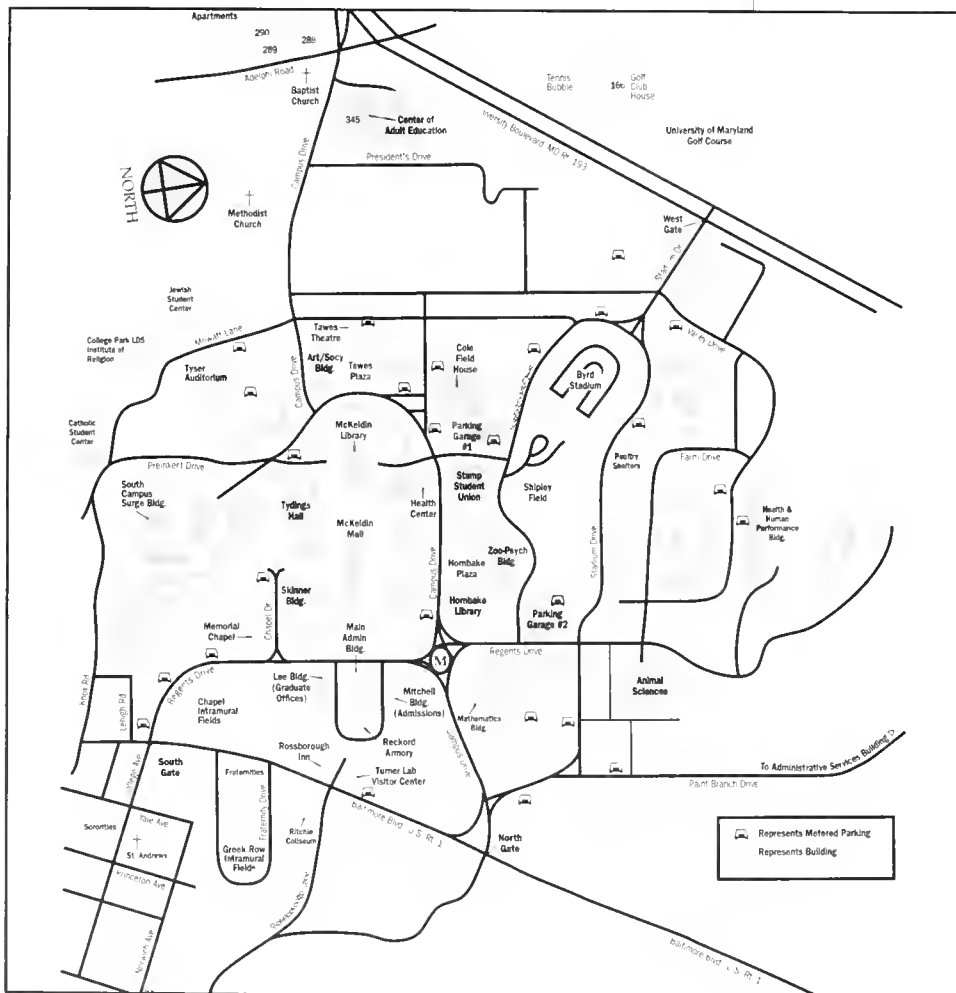

HAIL! ALMA MATER
Hail to thee, Maryland!
Steadfast in loyalty;
For thee, we stand,
Love for the Black and Gold
Deep in our hearts we hold,
Singing thy praise forever,
Throughout the land.

Recessional

Symphonic Wind Ensemble
Conductor, Mr. Wakefield

SCHEDULE OF EVENTS

Following the Commencement, individual graduation exercises for colleges and schools will be held at several campus locations. Ceremonies are scheduled to begin at 11:30 a.m., 11:45 a.m., 12:00 noon, 12:30 p.m. and 2:30 p.m. Guests are urged to be seated approximately one half hour prior to the designated time for the ceremonies if they wish to observe the student and faculty procession.

Graduates, their families and friends, are cordially invited and encouraged to join with university officials and members of the faculty at the reception to be held on the Mall. The rain location: Grand Ballroom of Stamp Student Union.

Shuttle bus service is available providing free transportation across the campus throughout the day.

Campus-Wide Commencement

9:30 a.m. Cole Student Activities Building

Architecture Graduation Ceremony

12:30 p.m. Architecture Auditorium

Arts and Humanities Graduation Ceremonies

11:30 a.m. Skinner Building

11:45 a.m. Tydings Hall

Life Sciences Graduation Ceremony

12:30 p.m. Memorial Chapel

Public Affairs Graduation Ceremony

12:30 p.m. Tyser Auditorium

Please note:

May 19, 1993

Agriculture Graduation Ceremony

7:30 p.m. Memorial Chapel

THE UNIVERSITY OF MARYLAND AT COLLEGE PARK

THE CAMPUS

College Park, the flagship institution of the university's 11-campus system, is the most comprehensive institution of higher education, research, and service in the state of Maryland. More National Merit and National Achievement Scholars attend College Park than any other public university in the state.

In fall 1993, undergraduates numbered 21,799 and graduate students 8,521 for a total enrollment of 30,320. This year's College Park operating budget is approximately \$591 million, including financial aid for some 21,639 students.

Students can choose from approximately 117 undergraduate and 84 graduate programs leading to degrees. In 1991-92, the campus awarded 5,183 bachelor's degrees, 1,454 master's degrees, and 529 doctorates.

HISTORY

The University of Maryland was founded in 1807 in Baltimore as a faculty-owned College of Medicine. Five years later, the growing institution was renamed the University of Maryland. The Baltimore College of

Dental Surgery, the first dental school in America, became a part of the university in 1840. Later, the university opened schools of pharmacy, law and nursing.

In 1859, the Maryland Agricultural College, which would evolve into the University of Maryland at College Park, was opened in Prince George's County under a charter secured in 1856 by a group of Maryland planters. This institution became one of the nation's original land-grant schools in 1865. After a disastrous fire on the campus in 1912, the state acquired control of the college and rebuilt it.

In 1920, the state legislature joined College Park with the professional schools in Baltimore to form an expanded University of Maryland. These schools were later grouped with the Baltimore County and Eastern Shore campuses and University College.

July 1, 1988, marked the dawn of a new era in higher education in the state of Maryland when a reorganization of the state's public universities and colleges mandated by the Maryland legislature went into effect. As a result, the five campuses comprising the former University of Maryland were merged with six institutions governed by the Maryland Board of Trustees of State Universities and Colleges to form the

new University of Maryland System. The law that created the new system designated College Park as the state's flagship institution.

THE LIBRARIES

The libraries at College Park constitute the largest university research library system in the Washington metropolitan area. The seven libraries support approximately 117 undergraduate and 84 graduate programs, serve more than 30,300 students, 2,500 faculty, and 5,500 staff and provide vital resources to researchers, visiting scholars, businesses, and others throughout the state and region. The libraries' holdings include over 2.1 million volumes, 19,959 subscriptions to periodicals, and more than 4.6 million items available in microfilm format. The College Park Libraries also offer several nationally and internationally recognized special collections such as the International Piano Archives at Maryland, the National Trust for Historic Preservation, the Katherine Anne Porter literary archive and the National Public Broadcasting Archives.

RESEARCH FACILITIES

College Park is the home of a variety of exceptional research facilities

including a computer vision laboratory; a full-scale low velocity wind tunnel; a 500-liter computer-controlled fermentation system for research in bioprocess scale-up programs; the Center for Automation Research; and a Neutral Buoyancy Facility for simulating weightlessness in deep space. Such major facilities as the Engineering Research Center, the Institute for Systems Research, and the Institutional Reform and the Informal Sector (IRIS) Center conduct research that is especially significant to the state, nation, and the world.

The Engineering Research Center is a major vehicle for extending the technical and research expertise of the University of Maryland to businesses and industries throughout Maryland. The center is both a catalyst for problem-solving and a clearinghouse for technical information resources.

The Institute for Systems Research conducts research in systems engineering, artificial intelligence and computer-aided engineering. Supported by the National Science Foundation and the private sector, the center operates in conjunction

with a program at Harvard University and complements a nationally recognized campus program of basic and applied research in computer science.

In November 1990, the Institutional Reform and the Informal Sector (IRIS) Center, funded by a five-year, \$8.9 million grant from the U.S. Agency for International Development, was established in the Department of Economics at College Park. The center's aim is to support institutional reforms that will foster competitive markets and democratic processes in Eastern Europe and developing countries.

College Park will be the home of one of the nation's most important research facilities—the 1.7 million square-foot, Second National Archives Building. The facility will house more than half the collection of the National Archives and Records Administration, including some of the nation's most valuable historical documents, among them the complete records of the Department of State and 11 million charts, maps, photos and documents from World War II and the Vietnam War. The building is scheduled for completion by fall 1993.

The proximity of the campus to national research institutions such as the National

Institutes of Health, the Smithsonian Institution, the USDA Beltsville National Agricultural Research Center and National Agricultural Library, and the Library of Congress ensures that prime research facilities are always available to the university's faculty and students.

UNIVERSITY OF MARYLAND AT COLLEGE PARK ALUMNI ASSOCIATION

Created July 1, 1989, the University of Maryland at College Park Alumni Association is designed to strengthen ties between the university and its graduates and to foster support for the University of Maryland at College Park. All graduating seniors and successful master's and Ph.D. candidates receive a six-month free membership in the association.

THE GRADUATES

Students graduating today from the University of Maryland at College Park follow in the footsteps of many notable alumni who have distinguished themselves in such fields as science, entertainment, the arts, journalism, business, law, medicine, and government.

As a graduate student in mathematics at College Park, Herbert A. Hauptman (Ph.D. '54) worked simultaneously at the Naval Research Laboratory to devise a method for mapping three-dimensional structures of molecules. Three decades later he and Jerome Karle, his long-time collaborator at NRL, won the 1985 Nobel Prize in Chemistry for

their pioneering research. Dr. Hauptman was awarded an honorary Doctor of Science degree by the university in 1985.

CBS News' Connie Chung ('69) worked on the *Diamondback*, the university's student newspaper, and for WMUC, the campus radio station, during her student years. Another successful journalist who received his collegiate training at College Park is Pulitzer Prize-winning science writer Jon Franklin ('70). Franklin, who won two Pulitzer Prizes for his work as a Baltimore *Evening Sun* reporter, currently heads the journalism program at Oregon State University.

One of the university's most devoted sons is A. James Clark ('50), president of The Clark Construction Group, Inc., the parent corporation of such nationally-recognized general contracting firms as The George Hyman Construction Company and OMNI Construction, Inc. A former member of the university's Board of Regents, in 1983 Clark made a major contribution to the College of Engineering establishing the A. James Clark Chair in Construction Engineering and Management.

Other notable alumni include Carmen Balthrop ('71), a former Metropolitan Opera star and currently associate professor of music at College Park; George V. McGowan ('51), chairman of Baltimore Gas and

Electric; Joseph B. Gildenhorn ('51), current U.S. ambassador to Switzerland; Rep. Tom McMillen ('74), Maryland's Fourth District Congressman; Mary Stallings Coleman ('35), the first woman elected to the Supreme Court of Michigan; Fred O'Green ('49), retired chairman of Litton Industries; Len Elmore ('74), Washington, D.C. attorney and CBS sports commentator; Rep. Steny Hoyer ('63), Maryland's Fifth District Congressman; Mathias J. DeVito ('54), chairman of The Rouse Co.; and Allen J. Krowe ('54), senior vice president and chief financial officer of Texaco.

ACADEMIC COSTUME

The black caps and gowns worn by the students and faculty in the academic procession have been the traditional costume of scholars since medieval times. They probably represent a kind of ecclesiastical dress, since many of the scholars of that period were members of monastic orders.

Most colleges and universities in the United States have adopted the uniform code for costumes drafted by an intercollegiate commission in 1983. Each of the three academic degrees "bachelor,

master and doctor" has its own distinctive gown and hood. The bachelor's gown has a longer, more narrow, closed sleeve extending below the knee; the arm fits through a slit at the elbow. The doctor's gown has a full, bell-shaped sleeve trimmed with three bars of velvet. The velvet trim on the gown can be black or a color indicating the wearer's general field of learning; for example, green for medicine or purple for law. A list of department colors follows.

Agriculture/Maize
 Arts, Letters, Humanities/White
 Business Administration,
 Commercial Science/Drab
 Dentistry/Lilac
 Economics/Copper
 Education/Light Blue
 Engineering/Orange
 Fine Arts, Architecture/Brown
 Forestry/Russet
 Home Economics/Maroon
 Journalism/Crimson
 Law/Purple
 Library Science/Lemon
 Medicine/Green
 Music/Pink
 Nursing/Apricot
 Oratory, Speech/Silver Gray
 Pharmacy/Olive

Philanthropy/Rose
 Philosophy/Dark Blue
 Public Administration,
 Foreign Service/Peacock Blue
 Public Health/Salmon
 Physical Education/Sage Green
 Science/Golden Yellow
 Social Work/Citron
 Theology and Divinity/Scarlet
 Veterinary Sciences/Gray

The most colorful and distinctive part of the academic costume is the hood extending down the back. The doctor's is the largest of the hoods and the bachelor's is the smallest. The bachelor's hood is often omitted.

Silk lining of various colors in the center of the hood indicates the college or university which conferred the degree. Consistent for all degrees is the cap, or mortar board, which has a tassel of black or another color indicating the field of learning. The tassel of the doctor's cap can be gold.

ACADEMIC DEGREES

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by colleges and universities nationwide.

The first known degree was a doctorate bestowed by the University of Bologna, Italy, in the mid-12th century.

Originally, the doctor's and master's degrees were used interchangeably, each indicating that the holder was qualified to instruct students. The bachelor's or baccalaureate, degree indicated readiness to enter into a course of study preparatory to the doctorate or mastership. Gradually, though, the bachelor's degree came to mean successful completion of one level of study in advance of the higher degrees.

THE DOCTOR'S DEGREE

The term "doctor," meaning teacher or instructor, originated with the ancient Romans for those who lectured publicly on philosophical topics. During the Middle Ages, it was used as a title of honor for men of great learning. It was first made an academic title at the University of Bologna, which was allowed by the emperor to appoint *doctores legum* (doctors of laws). The University of Paris followed suit in the year 1145. Soon after, popes granted the universities the right to appoint *doctores canonum et decretalium* (teachers of the canon law) and, when the study of civil law was combined with that of the canon law, the title was changed to doctor *utriusque juris* (teacher of both laws). The faculties of theology and medicine followed that of law in conferring this title. A doctorate is given beyond the bac-

calaureate degree and requires several years of advanced study, the successful completion of a thesis or dissertation, and written and oral examinations. The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Juris Doctor and Doctor of Pharmacy. These degrees carry no implication of original research. The University of Maryland awarded the first two dental degrees in history on March 9, 1841, and invented the name of the degree, Doctor of Dental Surgery

(D.D.S.).

The second type is a research doctorate representing prolonged periods of advanced study. A dissertation which usually accompanies the study is intended to contribute substantially to existing knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States in 1861 by Yale University. The University of Maryland awarded a Ph.D. for the first time in 1920.

THE MASTER'S DEGREE

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. The word *magister* was used by the Romans as a title of honor, but its present meaning can be traced to the establishment of the oldest universities. Organized faculties as they now exist in universities were not known then; academic activity was limited to seven liberal arts. Those who were honored for their diligence and knowledge upon completion of their studies and who had already received the bachelor's degree were called *magistri artium* (master of the liberal arts). In 1920, the University of Maryland awarded its first Master of Arts (M.A.) and Master of Science (M.S.) degrees in fields other than agriculture.

THE BACHELOR'S DEGREE

The bachelor's degree represents completion of a four-year course of college-level study and is the oldest academic degree used by American institutions of higher learning. It was first conferred in America in 1642 on the first nine graduates of Harvard College. Maryland Agriculture College, which later became the University of Maryland at College Park, awarded its first Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degrees in 1862.

Ruth M. Davis, one of the nation's most respected scientists, is this year's recipient of the second College Park Alumni Association President's Distinguished Alumnus Award. A summa cum laude graduate of the University of Maryland with M.A. and Ph.D. degrees in mathematics, Dr. Davis was one of the first women to receive a Ph.D. in mathematics from College Park.

Dr. Davis, who serves on the board of directors of seven Fortune 500 companies, draws upon years of experience in government and private industry as the president and CEO of The Pymatuning Group Inc., which advises companies on high technology issues. She has held a number of science positions in the federal government, rising to Deputy Undersecretary of Defense for Research and Advanced Technology (1977-79), and Assistant Secretary of Energy for Resource Applications (1979-81).

In addition she has served as Director of the Institute for Computer Sciences and Technology at the National Bureau of Standards; as the first Director of the National Center for Biomedical Communications in the Department of Health, Education and Welfare; and as Staff Assistant for Intelligence and Reconnaissance for the Secretary of Defense.

Dr. Davis is the chair of the Aerospace Corporation, and serves on the boards of various business and professional organizations including the Institute for Defense

Analyses, SofTech Inc., Sprint Corporation, Air Products & Chemicals and Varian Associates. She has been a member of the Board of Regents of the National Library of Medicine, serving as its chairman in 1991-92.

The many honors, awards and commendations Davis has received over the years include the National Women's Economic Alliance Director's Choice Award; Distinguished Service Medals in both the Department of Energy and the Department of Defense; the National Civil Service League Award; Federal Woman of the Year in 1972; the Department of Commerce Gold Medal; and the Rockefeller Public Service Award for Professional Accomplishment and Leadership.

Dr. Davis is a Fellow with the American Institute of Aeronautics and Astronautics, the Society for Information Display, and the American Association for the Advancement of Science. She lives in Silver Spring, Maryland.

DR. RUTH M. DAVIS

HUGH NEWELL JACOBSEN

Renowned Washington architect Hugh Newell Jacobsen, a 1951 graduate of the University of Maryland at College Park, is widely recognized as one of the top architects in the United States. Since starting his own practice in 1958, the buildings he has designed have earned more than 90 awards for outstanding design.

Jacobsen, who earned his master's degree in architecture from Yale University in 1955, is a six-time winner of the National Honor Awards of the American Institute of Architects, the highest award for architectural design given in the U.S. In addition, each year the professional journal,

Architectural Record, selects 15 of the best houses in the country and presents awards to the architects. Jacobsen has won 20 times.

Despite his prolific work in the field, he still finds time to contribute to arts and professional organizations, and he lectures extensively throughout the world. In 1970 he was a visiting professor for the Arts and Humanities at the American University in Cairo, Egypt, and in 1971 he delivered the Kennedy Memorial Fellowship lectures at four New Zealand universities.

His many articles over the years have appeared in various magazines including *Architectural Digest*, *Architectural Record*, *New*

Republic, and *House and Garden*. He contributes periodically to *The Washington Post* on urban design. He was also the editor of *A Guide to the Architecture of Washington, D.C.* in 1965, and currently is a member of the editorial board of the *Guide*.

Jacobsen was appointed by the mayor of Washington in 1976 to serve as a member of the Joint Committee on Landmarks for the Commission of Fine Arts and the National Capital Planning Commission, and served until 1982. He also served as a consultant to both the Historic Charleston Foundation and the Historic Savannah Foundation. He has been a member of the board of governors and a trustee for the Corcoran Gallery of Art, a trustee of the Washington Gallery of Modern Art and the Washington Theater Club, a member of the President's commission on Alumni Affairs for Yale University, and a trustee of the Foundation for the Preservation of Historic Georgetown.

In 1971 Jacobsen became a Fellow of the American Institute of Architects, and in 1992 he was elected an Academician of the National Academy of Design. A monograph on his life, entitled *Hugh Newell Jacobsen, Architect*, was published in 1988.

Classicist and educator Frank Martin Snowden has enjoyed a distinguished career as a teacher, scholar, administrator and diplomat. He has written several provocative books on the role of blacks in Greek and Roman antiquity, which argue that racial prejudice was absent from the ancient world. His work, internationally known, has influenced such varied disciplines as classics, history, art and archaeology.

An energetic, inspiring public speaker, Snowden began his classical training at the Boston Latin School before receiving three Harvard degrees: the A.B. in 1932, the A.M. in 1933, and the Ph.D. in 1944. He pursued post-graduate work in Rome and as a Fulbright research scholar in Italy.

His first book, *Blacks in Antiquity: Ethiopians in the Greco-Roman Experience* (1970) won the Charles J. Goodwin Award of Merit, the highest scholarly award given by the American Philological Association. *The Image of the Black in Western Art I: From the Pharaohs to the Fall of the Roman Empire* (1976) and *Before Color Prejudice: The Ancient View of Blacks* (1983) followed. Along with his many articles in classical and educational journals, and his numerous public lectures, these books seek to clarify and define the issues surrounding the role of blacks in ancient Greece and Rome.

Snowden started teaching classics at Howard University in 1940, and eventually became chairman of Howard's Humanities Program and

dean of Howard's College of Liberal Arts. Howard has honored him with Distinguished Scholar and Outstanding Teaching Awards.

The high quality of Dr. Snowden's research has been recognized by grants and fellowships from the Woodrow Wilson International Center for Scholars, the American Council of Learned Societies and the National Endowment for the Humanities. He has been named a lecturer for the Archaeological Institute of America, and elected to the board of directors and the vice-presidency of the American Philological Association.

He has served as cultural attache at the U.S. Embassy in Rome and on the U.S. delegation to UNESCO in Paris; he has lectured in many countries worldwide, among them Nigeria, Libya, Italy, Greece, Austria, India, Brazil, and the former Soviet Union and Yugoslavia.

DR. FRANK MARTIN SNOWDEN, JR. COMMENCEMENT SPEAKER

CANDIDATES FOR GRADUATE DEGREES

The May 1993 class roster comprises degree candidates from the undergraduate and graduate programs at the University of Maryland at College Park. As final action cannot always be taken for candidates by the time this program is printed, **the list of candidates here is tentative only.** The university reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of Records and Registrations.

Multi-Level Neural Networks, their Applications, and VLSI Circuit Implementation

Pablo M. Zafra Applied Mathematics

Theoretical and Computational Advances of the Fictitious Play Method and Its Application to Linear Programming Problems

James H. Zahniser Psychology

A Short-Term Group Intervention on the Self for Persons Suffering from a Serious and Persistent Mental Illness

Guifeng Zhang Chemistry

Mechanistic Investigation of DNA Cleavage Agents by Kinetic Isotope Effects

Metin Zora Chemistry

DOCTOR OF EDUCATION

Maggie E. Caples Curriculum and Instruction

A Comparison of the Teaching Strategies Used by Second-Year and Third-Year Graduates of the University of Maryland Master's Certification Program and Traditional Teacher Education Programs

Rita M. Carey Curriculum and Instruction

A Study of a Plant Closing Process and Its Impact on the Workforce

Cecelia G. Coffin Curriculum and Instruction

Patterns of Reflection: A Multicase Study of the Creative Initiative in Teacher Education

Janet M. Cornick Education Policy, Planning and Administration

The Role of Transformational Leadership in Achieving a Strong Organizational Culture in High Performing Secondary Schools: A Study of Leadership Team Practices

Mary E. Cabbage Curriculum and Instruction

The Effects of Explicit Instruction in Argumentation on Community College Freshmen's Persuasive Writing

Barbara A. Desrosiers Special Education

Role Redefinition as a Factor in Regular Classroom Teachers' Mainstreaming of Mildly Handicapped Children

William J. Gerardi, Jr. Curriculum and Instruction

A Comparison of the Graduates from a Graduate-Level Teacher Preservice Program with Those of Traditional Programs Regarding Disposition toward Research and Participation in Professional Development Activities

Larry E. Harrison Curriculum and Instruction

A Study of Teacher Satisfaction, Understanding, and Application of the Teacher Expectations Module of the Delaware Instructional Improvement Model

Nancy E. Hawpe Curriculum and Instruction

Emma B. James Education Policy, Planning and Administration

Elaine B. Kennedy Curriculum and Instruction

An Investigation Using Independent, Collaborative Pairs, and Cooperative Group Practice Modes for Teaching Cardiac Monitor Rhythm Strip Interpretation

Larry G. Norris Special Education

A Study of Adolescents with Behavior Disorders Who Remain in School and Those Who Drop Out

Barbara B. Philips Curriculum and Instruction

Writing to Learn Mathematics: The Effects of Writing/Discussion Versus Discussion-only on Short-term and Long-term Performance in Trigonometry

Florence N. Rieken Curriculum and Instruction

Osmosis in a Tenth Grade Advanced Biology Laboratory-Classroom

Beth V. Wisecup Curriculum and Instruction

Emerging Transformational Leadership among Graduates of a Master's Degree Teacher Education Program

DOCTOR OF MUSICAL ART

Kathleen H. Arecchi Music

The Political Lament Cantatas of Luigi Rossi (ca. 1597-1653)

Jeanell E. Brown Music

The Chamber Works with Piano of Amy Beach

Murray L. Decock Music

Pamela L. Kelly Music

The 50 Ponteias of Camargo Guarnieri

Amy F. Muchnick Music

Brenda Smith Music

The Performing Teacher: A Study of Performance Teaching in Liberal Arts Education

COMMISSIONS

Second Lieutenants U.S. Air Force Reserves

Sean Patrick Larkin
 Burtis Terry Spencer

ACADEMIC AND SPECIAL AWARDS

Adams Group Award to the outstanding Journalism senior in Advertising.

May 1993
Eileen Berlin

Isidore and Annie Adler Scholarship Award (Dept. of Chemistry and Biochemistry).

Steven Poole

Administering Council for Theatre Award (Dept. of Theatre).

Nancy Arnold
Mary Arras
Ben Plavin
Mark Rimer
Laura Thornburg

Advertising Sequence Award to the outstanding Journalism senior in Advertising.

December 1992
Kevin Morris Peck

Aerospace Engineering Department Academic Achievement Award.

Sherman C. Lo

Agricultural Alumni Award presented to a senior whose leadership and service has contributed most towards the advancement of the College of Agriculture.

Tracy L. Hearne

Agricultural Engineering Department's Outstanding Senior Award.

Paul J. Hishmeh

Alpha Rho Chi Medal to a graduating student of architecture who has made a distinctive contribution to school, life, embodying the ideals of professional service and leadership.

Michael David Greigg

Alpha Zeta Freshman Award to a full-time student in the College of Agriculture in recognition of scholastic excellence during his or her freshman year.

Johanna M. Froelich

American Association of University Women, College Park Branch Awards.

Elizabeth Regnier Beil
Suzanne E. Prickett

American Defense Preparedness Association Award (AFROTC).

Sean P. Larkin

American Helicopter Society Outstanding Achievement Award (Dept. of Aerospace Engineering).

Andrew M. Baker

American Institute of Aeronautics and Astronautics Outstanding Achievement Award to the student who has made the most outstanding contribution through scholarship and service to the student branch.

Robert L. Matthews

The American Institute of Architects AIA Certificate to a graduating student of architecture for academic achievement.

Robert Daniel Weaver

The American Institute of Architects AIA Medal to a graduating student of architecture for outstanding overall academic achievement.

Maurice Carroll Walters III

American Institute of Chemists Award to an outstanding senior for scholarship in chemistry and biochemistry.

Lucie Yang

American Legion Outstanding Senior Award (AFROTC) to the cadet best described as the Outstanding ROTC Senior.

Sean P. Larkin

American Legion ROTC General Military Excellence Award (AFROTC) to a senior (Gold Award) in the upper 25 percent of the ROTC class, and who has demonstrated outstanding qualities in military leadership, discipline and character.

Sean P. Larkin

American Society of Agricultural Engineers Scholarship Award—Maryland ASAE Section.

Guillermo F. Mendoza

American Society of Agricultural Engineers Student Honor Award.

Neal R. Sereboff

American Society of Agronomy Award to the outstanding senior in agronomy who has demonstrated superior scholarship, leadership activities and personal traits (Dept. of Agronomy).

Jill E. Petrisko

American Society of Civil Engineers Outstanding Senior Award.

Lawrence J. Egan

American Society of Mechanical Engineer's Senior Award.

Kevin M. Young

Analytical Chemistry Award (Dept. of Chemistry and Biochemistry).

Anh Luu

James R. Anderson Award (Dept. of Geography).

Susan Gillette

School of Architecture Alumni Scholarship Award

Serge Plishevsky

School of Architecture Alumni Chapter Award—Masters.

Jeffrey Raymond Pulford

School of Architecture Alumni Chapter Award—Senior.

Dina Marie Chin

School of Architecture Dean's Thesis Award for Fall Semester 1992.

Jennifer Lynn Carney

School of Architecture Faculty Award for Academic Excellence.

Allen Thomas Beall

School of Architecture Faculty Award for Excellence in Design—Masters.

Robert Gilbert Griffith

Melissa Kay Wilfong

School of Architecture Faculty Award for Excellence in Design—Senior.

Shawn Michael Watts

School of Architecture Special Award for Service to the School of Architecture.

James Cole Solomon

Baltimore Sun Journalism Scholarships for Minority Students (College of Journalism).

Edward Heard (Senior)

Dan-Thanh Dang (Junior)

Shanon Murray (Sophomore)

Robert Battista Award recognizing an outstanding senior conducting research in the area of Organic Chemistry.

Michael Bogdan

The Bechtel Award (Dept. of Civil Engineering).

Dan Kubican

The Harold R. W. Benjamin International Fellow presented to a worthy graduate student majoring in International Education or Comparative Education.

Julia R. Bates

Paul Berg Scholarship Award (College of Journalism).

Elizabeth Cummings

B'nai Zion Award for Excellence in Hebrew.

Gutman Andrew Craig

Bode Prize (Dept. of English).

Eleanor E. Heginbotham

Broadcast News Award to the outstanding Journalism senior in Broadcast News (College of Journalism).

December 1992

Rhonda Ann Boarman

May 1993

Diane Duffy

J. Y. Bryan Prize for Investigative Reporting (College of Journalism).

Jessica Gregg

J.Y. Bryan Prize for Photography (College of Journalism).

Lisa Helfert

James Edward Miller Chapman Scholarship (College of Business and Management).

Cynthia Ritchie

Chemistry Society of Washington Award to the outstanding senior in the Department of Chemistry and Biochemistry.

Reno Nguyen

Chicago Chapter SFPE Scholarship Award (Dept. of Fire Protection Engineering).

James P. Begley

Civil Engineering Chi Epsilon Outstanding Senior Award.

Martina T. Driscoll

Civil Engineering Department Chairman's Award.

Raymond Gore Bolton

Civil Engineering Department Outstanding Senior Award

Deborah L. Johnston

Computer Science Department Undergraduate Scholarship Awards.

Nirupama Chandrasekaran

Samuel Lamphier

Ariel Tamches

Huazhang Xu

Chengyin Ye

Computer Sciences Corporation Scholarship awarded to the outstanding entering computer science freshman.

Sivan Ritenstreich

Commander's Trophy to a senior cadet who exhibits outstanding corps leadership and is exemplary in all aspects of character, behavior, attitude, and academic excellence (AFROTC).

Paul M. Oldham

Charles Connor Scholarship Award from the Baltimore Propeller Club (College of Business and Management).

Lori Pirano

Ms. Tipton Stringer Conrad Scholarship Award (Dept. of Theatre).

Jenni Blong

Margaret Cook Award by Prince George's County Heritage, Inc., and presented by the Prince George's County Historical and Cultural Trust to a graduate student in recognition of excellence in the field of historic preservation (School of Architecture).
Mary Anita Conway

Carroll E. Cox Scholarship Award to the outstanding research graduate students in the Department of Botany during the last year.
Robert B. Bertram
Gregory R. Wolfe

CRC Press, Inc., Freshman Award (Dept. of Chemistry and Biochemistry).
Karl Kevala

Creative and Performing Arts Scholarship Awards (Dept. of Theatre).
Mary Arras
Rob Crites
Michael Naleszkiewicz
Mark Rimer

Susan Daugherty Scholarship Award (College of Journalism).
Jennifer Dix

Dean's Scholarship (College of Journalism).
Jennifer Day (Junior)
Elaine Rae Rubin (Sophomore)
Anne Tallent (Freshman)

Philip L. DeCamara Jr. Memorial Scholarship Award sponsored by the American Fire Sprinkler Association to an outstanding senior (Dept. of Fire Protection Engineering).
Scott A. Hill

Delaware-Maryland Plant Food Association Scholarship Award (Dept. of Agronomy).
Jill E. Petrisko

Delta Nu Alpha—Chapter 23 Award (College of Business and Management).

SCHOLARSHIP HONORS

Bachelor's degree candidates who have qualified for scholarship honors upon graduation are designated by appropriate symbols adjacent to their names within the alphabetical listings of colleges or schools.

To be eligible for consideration for such honors a candidate must meet the following general criteria: (1) have completed at least 2 years of work at the University of Maryland (60 semester hours, 30 of which were earned at the College Park campus) and (2) have a scholastic average of B (grade point average of 3.000) or higher in University of Maryland work prior to the last semester of registration before award of degree.

May 1993 candidates who have met these criteria are shown in the listings as qualifying, upon graduation, for the designators *Summa cum Laude* (if they ranked in the top two percent of the candidates in their respective colleges or schools, *Magna cum Laude* (if in the next three percent), or *cum Laude* (if in the next five percent), based on the grade point averages of students in the preceding three graduating classes of their degree-granting unit.

GENERAL HONORS PROGRAM

Kenneth Guy Brown
 Neena Kumari Chaudhry
 Elizabeth Nan Cummings
 Andrea Paulina Dvoredsky
 Nicholas Fontaine Evageliou
 Michael David Grant
 Marianne Jeesook Hwang
 Brandon Dean Lamson
 Stan Young Lee*
 Melissa Eileen Leung*
